

## Standard Parts. Ganter.

Dear reader,

We have expanded our range: with the new “Wheels and Casters” product family, we offer you a sophisticated solution for every requirement - from light duty casters to medium duty casters and heavy duty casters.

The focus here is on maximum maneuverability, high load capacities and top ergonomic performance.

Discover this product group of “mobilizers” online now - with clever filter options that offer you the perfect selection for your individual requirements in no time at all!

Greetings from the Black Forest!

Otto Ganter GmbH & Co. KG

### NEW Wheels and Casters – New Product Roll-Out

As always, Ganter is entirely focused on practical requirements: the individual types are organized according to the applicable ISO testing procedures, making it easy to associate them with the most important configuration parameters. For example, the new range includes light duty casters with low load capacity, medium duty casters for industrial use and heavy duty casters designed for high dynamic loads coupled with higher travel speeds. Since an entire caster is not always needed – and since wheels and their tread are subject to wear – all wheels can also be ordered individually.
