

Standard Parts. Ganter.

Dear reader,

The latest edition of the Ganter newsletter is here – with exciting news and interesting insights about our standard parts.

When space is limited or maximum sealing is required, clever closing solutions are needed. Ganter is expanding its portfolio with new stainless steel hook-type latches – robust, hygienic, and easy to use.

The fact that innovation is a top priority at Ganter is demonstrated by the latches GN 1150 receiving the Ringier Technology Innovation Award 2025.

The last two trade shows of the year are also just around the corner! Find out where you can experience our products one more time this year.

Greetings from the Black Forest!
Otto Ganter GmbH & Co. KG

NEW Hook-Type Latches GN 115.8 Now Available in Stainless Steel

The new stainless steel hook-type latches [GN 115.8](#) meet protection class IP 65 and are ideal for use in wet or hygiene-sensitive areas. Thanks to their flexible functional design, they can be mounted on either side and compensate for misalignments of up to four millimeters.

Whether with a key, handle, or lever – Ganter offers the right solution for every installation situation.
